By A Worcester

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Monthly Nursing Nursing is a new profession, and marks a glorious advance in civilization. Like the profession it supplements, it naturally divides into specialties, chief among which will always be that of monthly nursing. In other sicknesses, members of the family can often nurse each other. In time of travail even the savage depends upon the help of other women; and in no other branch of improved nursing is there promise of greater blessing to the human race. To the young doctor, fresh from his study of the science, the art of Midwifery is intelligible. Even if his memory fails him, his text-books and note-books are at hand to tell him the reason of every step. The student nurse, on the other hand, whether in maternity wards or in private service, lacks this great advantage.
