geometric, topological and categorical structures are closely related to homotopy and the influence of  
homotopy is found in many fundamental areas of mathematics such as general algebra, algebraic topology,  
algebraic geometry, category theory, differential geometry, computer science, K-theory, functional analysis,  
Galois theory and in physical sciences as well. The J. Homotopy and Related Structures intends to develop its  
vision on the determining role of homotopy in mathematics. the aim of the Journal is to show the importance,
