Honey has antioxidants that help in slowing down the deterioration of cells. Speaking of slowing down deterioration and antioxidants, nowadays if we watch television, read magazines, or even surf the internet, we always watch or read chemically based products that help detoxify us and will help us look younger. Young and old are all attracted to these advertisements and promotions; even I would really go for these products just to preserve my physical beauty. But the question is, are they safe? Can those products contribute to good health? Do those products have side effects that can possibly harm us?
