

In the Shadow of the Sabertooth: A Renegade Naturalist Considers Global Warming, the First Americans and the Terrible Beasts of the Pleistocene

By Doug Peacock

AK Press, United Kingdom, 2013. Paperback. Book Condition: New. 190 x 127 mm. Language: English . Brand New Book. Doug Peacock, as ever, walks point for all of us. Not since Bill McKibben's *The End of Nature* has a book of such import been presented to readers. Peacock's intelligence defies measure. His is a beautiful, feral heart, always robust, relentless with its love and desire for the human race to survive, and be sculpted by the coming hard times: to learn a magnificent humility, even so late in the game. Doug Peacock's mind is a marvel there could be no more generous act than the writing of this book. It is a crowning achievement in a long career sent in service of beauty and the dignity of life. Rick Bass, author of *Why I Came West* and *The Lives of Rocks* Our climate is changing fast. The future is uncertain, probably fiery, and likely terrifying. Yet shifting weather patterns have threatened humans before, right here in North America, when people first colonized this continent. About 15,000 years ago, the weather began to warm, melting the huge glaciers of the Late Pleistocene. In this brand new landscape, humans managed...
